Education

Sri Venkateswara College of Engineering, Tirupati *Sept 2022 – April 2026*
B.Tech in Computer Science CGPA: **9.1/10**

Work Experience

Software Engineer Intern - Infosys *Feb 2026 - April 2026*

- Developed **TripNest** using **Angular 21** and **Firebase**, enabling users to search and book trips across **120+ destinations** in **26 countries**.
- Secured booking routes using **Firebase Authentication** and **Angular Auth Guards**, enabling **Google OAuth** and email sign-in while preserving user sessions across reloads.
- Built backend services with **Cloud Firestore** to track bookings in real time, using **Firebase Cloud Functions** for secure payment verification.
- Integrated **Razorpay** for online trip checkout and created search filters by category, budget, and duration, with responsive styling and **persistent dark/light themes**.
- **Tech Stack:** Angular 21, TypeScript, Firebase Auth, Cloud Firestore, Razorpay, HTML5, CSS3, Git

Projects

Borrower Copilot – *AI-Powered Loan Advisor* GitHub Live

- Built **Borrower Copilot** with **React 19**, **TypeScript**, and **Express**, helping borrowers evaluate safe debt limits across **3 employment profiles**
- Designed a **financial rules engine** calculating **tiered FOIR limits (25%-55%)** and stress-testing loan affordability under **15% income drops**
- Implemented **REST APIs** in **Node.js** and **Express** across **5 MySQL tables** on **Aiven Cloud**, secured with **JWT** and **Google OAuth 2.0**
- Integrated **Google Gemini AI** with an automated **3-model fallback strategy**, delivering instant borrowing summaries and printable **Negotiation Cards** built with **Tailwind CSS**
- **Tech Stack:** React 19, TypeScript, Node.js, Express, MySQL (Aiven Cloud), Google Gemini AI, Tailwind CSS, JWT, Vercel

Prescripto – *Smart Healthcare Management Platform* GitHub Live

- Engineered a **full-stack healthcare platform** with **React**, **Node.js**, and **Express**, cutting appointment booking time from **15 minutes** to **under 2 minutes**.
- Configured **JWT**-based authentication and role-based authorization across **patient**, **doctor**, and **admin** roles, securing access to protected front-end and back-end routes.
- Built **15+ REST APIs** with **Node.js** and **Express** for appointment scheduling, doctor management, and user profiles, backed by **MongoDB**, with API testing in **Postman**.
- Integrated **Cloudinary** for image storage and **Razorpay** for payments across **3 user portals** and **6 medical specialties**, with responsive UIs in **Tailwind CSS**.
- **Tech Stack:** React, Node.js, Express, MongoDB, Tailwind CSS, JWT, Cloudinary, Razorpay, Vercel

Technical Skills

Languages: Java, JavaScript (ES6+), TypeScript, SQL

Frontend: React, Angular, Tailwind CSS, DaisyUI, HTML, CSS

Backend: Node.js, Express, REST APIs, JWT Authentication

Databases: MongoDB , Firestore, MySQL

Core Concepts: Data Structures and Algorithms, OOP, DBMS, OS, CN, SDLC

Tools & DevOps: Git, GitHub, Postman, CI/CD, Vercel, Render, Cursor, Lovable, Antigravity, Claude

Testing: Unit Testing, API Testing, End-to-End (E2E) Testing, Automated Testing

Certifications & Achievements

- AWS Cloud Practitioner Essentials - Amazon Web Services (AWS) *2026*
- Earned a **4⋆ SQL Badge** on HackerRank *2026*
